Ucapan Terima Kasih

Thank You Note

Segala puji bagi Allah Tuhan semesta alam yang telah memudahkan Yayasan Pundi Amal Peduli Kasih ("YPP") melewati 2022 dengan berbagai kegiatan yang memberikan arti bagi masyarakat banyak. 2022 adalah tahun di mana pandemi Covid19 mulai melandai, kondisi di mana ekonomi harus mulai membaik dan meningkat lagi. Namun bagi para pengusaha kecil yang paling pertama kali terkena dampak pandemi, tidak mudah bagi mereka untuk bangkit lagi dengan cepat. Perlu stimulan baru untuk dapat memulai lagi usaha mereka yang sempat terjatuh sementara pasar terus bergerak mengikuti tren baru. Di sinilah YPP hadir membantu mereka dengan meningkatkan keterampilan agar dapat mengikuti perkembangan dunia usaha. Pelatihan seperti keterampilan barista bagi pengusaha warung kopi, yang sebelumnya hanya menjual kopi sachet, menjadi bisa menjual kopi "gaul" untuk kalangan anak muda tentunya memberikan dampak bagi mereka untuk memperluas pasar. Pelatihan MC juga dilakukan YPP untuk meningkatkan keterampilan MC yang tadinya hanya sebatas MC antar tetangga, menjadi MC dengan acara yang lebih kompleks.

Bukan hanya dunia usaha yang terkena dampak pandemi, pertanian pun harus menanggung harga pupuk kimia yang semakin meroket. Untuk membantu masalah ini, YPP hadir memberikan dukungan pelatihan pembuatan pupuk organik bagi puluhan kelompok tani di berbagai desa agar mereka dapat memanfaatkan sampah daun untuk dijadikan pupuk organik sehingga tidak perlu lagi membeli pupuk kimia yang memang juga tidak baik untuk lingkungan. Pemberdayaan masyarakat, vaksin booster dan pemenuhan kebutuhan dasar merupakan tiga hal utama yang dilakukan YPP dalam menopang kembali pergerakan ekonomi saat pandemi semakin melandai.

Beberapa bencana besar Indonesia juga memasuki tahap rehabilitasi di 2022. YPP selain selalu hadir saat tanggap darurat, juga hadir di masa rehabilitasi. Dengan dukungan Indosiar dan SCTV dalam menggalang dana masyarakat, YPP dapat membangun balai pertemuan di lokasi hunian tetap erupsi gunung Semeru, yang merupakan permintaan dari Bupati setempat. Dalam rangka HUT Indosiar ke-27, YPP juga berhasil merenovasi SDN 02 Sidomulyo, Pronojiwo, Lumajang, Jawa Timur, yang terkena dampak erupsi Gunung Semeru. YPP juga ikut berkontribusi dalam pembangunan hunian tahan gempa dan Community Center di desa Wini, Kabupaten Timor Tengah Utara, Nusa Tenggara Timur, yang pernah terkena banjir bandang di 2021. Rumah dan Community Center yang dibangun merupakan hasil rancangan Menteri Sosial RI, Ibu Tri Risma Harini. Saat gempa Cianjur, YPP juga hadir di masa tanggap darurat, dan saat ini tengah menyiapkan untuk pembangunan kembali beberapa hunian yang digagas oleh Kementerian Sosial RI.

All praise is due to Allah, the Lord of the Worlds, who has made it untroubled for Pundi Amal Peduli Kasih Foundation ("YPP") to get through 2022 with various activities that gave meaning to the community at large. 2022 was the year when the COVID-19 pandemic began to decrease, the year when the economy had to start recovering and improving again. However, for small businesses who were the first to be hit by the pandemic, it was difficult for them to get back on their feet immediately. A new stimulant is needed to revive the already declining business as the market continues to move into a new trend. As a response to such condition, YPP provided upgrading skill training to small businesses so that they could keep catching up with the development in the business world. One of the trainings is the barista training for coffee shop entrepreneurs, who previously only sold sachet instant coffee, to be able to sell "hype" coffee for youngsters. This certainly had an impact on them to expand their market. YPP also conducted an MC training to improve the skills of local MCs of some low cost flats residents, who were previously MCing only in neighbors' scope, to MCing with more complex events.

It was not only the business sector that has been affected by the pandemic; the agriculture sector was also having to bear the skyrocketing prices of chemical fertilizers. To help with this problem, YPP provided support for training on making organic fertilizer for dozens of farmer groups in various villages so that they could use leaf waste to make organic fertilizer. Therefore, they don't have to buy chemical fertilizers which were also not good for the environment. Community empowerment, booster vaccines, and meeting basic needs were the three core activities that YPP was doing to support economic movement again when the pandemic was decreasing.

Several major Indonesian disasters were also entering the rehabilitation stage in 2022. Apart from always being present during the emergency response, YPP was also present during the rehabilitation period. With Indosiar and SCTV's support in raising community funds, YPP was able to build a meeting hall around the refugee's permanent housing of Mount Semeru, requested by the local Regent. In line with Indosiar's 27th anniversary, YPP also succeeded in renovating SDN 02 Sidomulyo, Pronojiwo, Lumajang, East Java, which was also affected by the eruption of Mount Semeru. YPP also contributed to the construction of earthquake-resistant housing and a Community Center in the village of Wini, North Central Timor District, East Nusa Tenggara, which was hit by flash floods in 2021. The houses and Community Centers were designed by the Indonesian Minister of Social Affairs, Tri Risma Harini. During the Cianjur earthquake, YPP was also present during the emergency response period and was currently preparing for the rebuilding of several housing initiated by the Indonesian Ministry of Social Affairs.

Selain itu, di bidang kesehatan, YPP terus aktif dalam pelaksanaan donor darah dan operasi katarak gratis di berbagai tempat, untuk membantu pemerintah mengurangi jumlah penderita katarak di Indonesia, yang pertambahannya lebih cepat dari jumlah operasi yang diselenggarakan. Di bidang Pendidikan, YPP mengalokasikan dana untuk membantu mereka yang terancam tidak kuliah karena kendala biaya. Beberapa penerima beasiswa telah lulus kuliah bahkan dengan predikat cumlaude. Di bidang lingkungan, YPP konsisten mengusung flagcarrier HUT SCTV dengan pembangunan Jembatan Asa di berbagai lokasi di Indonesia dan kegiatan SCTV Cinta Anak Yatim setiap bulan Ramadan.

Akhirnya kami haturkan penghargaan yang setinggi-tingginya kepada Grup Emtek yang di dalamnya terdapat SCM, Indosiar dan SCTV, yang telah menaungi dan memberikan dukungan CSR dalam setiap kegiatan YPP. Terima kasih yang sebesar-besarnya kepada pemirsa setia Indosiar SCTV yang telah mempercayakan donasinya melalui YPP. Demi menjaga kredibilitas dan akuntabilitas, setiap tahun YPP selalu diaudit baik secara internal maupun eksternal. Seluruh laporan kegiatan YPP dapat dilihat melalui website www.ypp.co.id dan semua media sosial kami di [ypp_indosiarstv](https://www.instagram.com/ypp_indosiarstv).

Tanpa dukungan yang luar biasa dari Emtek Group, SCM, Indosiar dan SCTV serta pemirsa setia, tidak mungkin bagi kami dapat melakukan begitu banyak hal bagi masyarakat Indonesia.

In addition, in the health sector, YPP was continuing to be active in carrying out blood donations and free cataract surgery in various places to help the government reduce the number of cataract sufferers in Indonesia, whose number of infected increased faster than the number of surgeries carried out. In the education sector, YPP also allocated budget to help those who were threatened by dropping out of college due to financial constraints. Several scholarship recipients have graduated from college even with cum laude predicate. In the environmental sector, YPP consistently carried the SCTV anniversary flag carrier with the construction of Jembatan Asa SCTV (SCTV Bridges of Hope) in various locations in Indonesia and SCTV's Cinta Anak Yatim (SCTV Love Ophans) activities every month of Ramadan.

Finally, we extended our highest appreciation to the Emtek Group, which includes SCM, Indosiar, and SCTV, which have sheltered and provided CSR support in every YPP activity. A big thank you to Indosiar SCTV's loyal viewers who have entrusted their donations through YPP. In order to maintain credibility and accountability, YPP is audited every year both internally and externally. All YPP activity reports can be viewed through the website www.ypp.co.id and all of our social media at [ypp_indosiarstv](https://www.instagram.com/ypp_indosiarstv).

Without the extraordinary support from Emtek Group, SCM, Indosiar, and SCTV and loyal viewers, it would not be possible for us to do so much for the citizens of Indonesia.

Drs. Imam Sudjarwo, M.Si
Ketua Umum YPP
Executive Chairman

Yayasan Pundi Amal Peduli Kasih

Pundi Amal Peduli Kasih Foundation

Pundi Amal SCTV dan Peduli Kasih Indosiar dibentuk pada tahun 2000 untuk merespon kepedulian pemirsa dan perusahaan kepada masyarakat pra-sejahtera dan masyarakat terdampak bencana alam. Dua program sosial perusahaan ini pada akhirnya bergabung menjadi Yayasan Pundi Amal Peduli Kasih (YPP) pada tahun 2015 di bawah naungan Indosiar dan SCTV yang merupakan anak perusahaan dari Emtek Group.

Dana yang terkumpul berasal dari donasi masyarakat disalurkan kembali kepada masyarakat yang membutuhkan dalam berbagai bentuk kegiatan sosial, sementara biaya operasional kegiatan berasal dari dana CSR SCTV dan Indosiar.

YPP fokus pada empat bidang utama yaitu bidang Bencana, Kesehatan, Pendidikan, Lingkungan.

SCTV's Pundi Amal and Peduli Kasih Indosiar were formed in 2000 to respond to viewers' and company's concern for underprivileged communities and community affected by natural disasters. These two corporate social programs are finally joined to be Pundi Amal Peduli Kasih Foundation (YPP) in 2015 under the auspices of Indosiar and SCTV, subsidiary of the Emtek Group.

Funds collected from community donations are channeled back to people in need in various forms of social activities, while the operating costs of activities comes from SCTV and Indosiar's CSR funds.

YPP focuses on four main areas namely Disaster, Health, Education, Environment.

Bidang Bencana | Disaster Relief

Terjun langsung ke wilayah bencana memberikan bantuan tanggap darurat dan perbaikan infrastruktur

The team went directly to disaster area to provide emergency response and infrastructure improvements.

Bidang Lingkungan | Environment

Ikut membantu program pemerintah menciptakan lingkungan yang layak tinggal dan sehat.

Participating in succeeding the government program to establish a viable and healthy living environment.

(4) Empat bidang kegiatan YPP ;
YPP has four activity sectors ;

Bidang Kesehatan | Health Promotion

Memberikan bantuan biaya medis bagi warga tidak mampu yang membutuhkan pengobatan.

Helps the unfortunate people with their medical expenses

Bidang Pendidikan | Education

Ikut membantu program pemerintah mesukseskan pemerataan pendidikan di Indonesia.

Participating in succeeding the government program to equalize the education in Indonesia.

Kegiatan

Bidang Kebencanaan

Disaster Relief

Kegiatan kebencanaan YPP 2022 masih fokus pada penanganan dampak COVID-19 dan bencana alam lainnya di Indonesia. Penanganan dampak Covid 19 terdiri atas 3 bagian utama yaitu : dukungan untuk vaksin booster, pemberdayaan masyarakat, dan pemenuhan kebutuhan dasar.

Sementara itu di 2022 YPP juga menyampaikan sejumlah bantuan bencana yang telah masuk tahap rehabilitasi seperti Erupsi Gunung Semeru dan Banjir Bandang NTT. YPP juga hadir di masa tanggap darurat pada gempa Cianjur yang terjadi di 2022.

YPP 2022 disaster activities are still focused on handling the impact of COVID-19 and other natural disasters in Indonesia. Handling the impact of COVID-19 consists of 3 main parts, namely : support for booster vaccines, community empowerment, and fulfillment of basic needs.

Meanwhile in 2022 YPP also delivered a number of disaster assistance that have entered the rehabilitation stage such as the Mount Semeru Eruption and NTT Flash Floods. YPP was also present during the emergency response during the Cianjur earthquake that occurred in 2022.

Dengan 3 fokus utama yaitu Vaksin Booster, Pemenuhan Kebutuhan Dasar dan Pemberdayaan Masyarakat Pasca Pandemi, YPP aktif dalam membantu agar masyarakat bisa kembali beraktifitas.

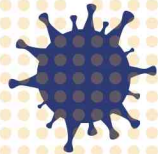

With 3 main focuses, namely Booster Vaccines, Fulfillment of Basic Needs and Post-Pandemic Community Empowerment, YPP actively helping people return to their activities.

Vaksin Booster

Booster Vaccine

YPP ikut membantu pemerintah mengejar percepatan vaksin booster di Indonesia. Sebanyak 1000 dosis vaksin Sinopharm milik Emtek Group (induk perusahaan yang menaungi Indosiar, SCTV dan YPP), didistribusikan oleh YPP di desa Sukorejo, Kendal, Jawa Tengah, setelah sebelumnya juga mendistribusikan vaksin Sinopharm untuk dosis 1 dan 2.

Sementara di kota-kota lain YPP juga mendukung program vaksinasi di dalam bentuk bahan kontak bagi peserta yang telah divaksin.

YPP supported the government in accelerating booster vaccines in Indonesia. As many as 1,000 doses of the Sinopharm vaccine belonging to the Emtek Group (the parent company of Indosiar, SCTV and YPP), were distributed by YPP in the village of Sukorejo, Kendal, Central Java, which was also previously distributed Sinopharm vaccines for doses 1 and 2.

Meanwhile in other cities, YPP supported vaccination programs in the form of contact materials for participants who have been vaccinated.

Pemenuhan Kebutuhan Dasar

Fulfillment of Basic Needs

Selama 2022 dampak pandemi Covid-19 masih dirasakan oleh masyarakat banyak. Kekurangan bahan pokok dan kebutuhan masker masih menjadi perhatian di berbagai tempat. YPP membagikan lebih dari 20 ribu paket sembako di berbagai lokasi guna mengatasi kekurangan bahan pangan masyarakat. Memasang instalasi air bersih yang siap diminum juga dilakukan YPP untuk memudahkan masyarakat di lokasi-lokasi tertentu yang membutuhkan pasokan air siap minum dan sehat bagi kehidupan yang lebih sehat.

During 2022, the impact of the COVID-19 pandemic was still being felt by many people. The shortage of basic commodities and the need for masks were still a concern in various places. YPP distributed more than 24 thousand basic food packages in various locations to overcome the community's food shortage. Installing clean water installations that were ready to drink was also carried out by YPP to make it easier for people in certain locations who needed a supply of ready-to-drink water and healthy water for a healthier life.

Pemberdayaan Masyarakat

Community Empowerment

YPP membantu pemerintah menggerakkan kembali perputaran roda ekonomi dengan memberikan pemberdayaan bagi masyarakat yang terdampak Covid-19. Beberapa di antaranya adalah melalui berbagai pelatihan untuk meningkatkan keterampilan serta kegiatan-kegiatan yang membantu bergerak kembali usaha kecil.

YPP has helped the government getting the economy rolling back again by providing empowerment for communities affected by COVID-19. Some of them were through various trainings to improve skills as well as activities that helped small businesses to run again.

5 Unit

Pelatihan dilakukan sesuai minat dan bidang usaha yang dijalani oleh penerima manfaat untuk menjamin keberlanjutan. Misalnya pelatihan barista diberikan kepada pengusaha kopi sachet yang ingin menambah pelayanan usahanya dengan menghasilkan kopi kekinian. Pelatihan MC diberikan kepada mereka yang memang berminat pada kegiatan public speaking dan meningkatkan kemampuan dari MC berskala RT menjadi MC kelurahan, dan lain sebagainya.

YPP memberikan perhatian pada kegiatan pelatihan pupuk organik di beberapa daerah demi mengurangi ketergantungan petani pada pupuk kimia. Hal ini dilakukan karena pada 2022 harga pupuk kimia, yang sebagian bahan dasarnya diimpor dari luar negeri, kian meroket terutama karena terjadinya perang Rusia dan Ukraina. Berkurangnya ketergantungan petani pada pupuk kimia akan sangat membantu ketahanan pangan Indonesia di tengah situasi politik dunia yang memanas pada 2022.

YPP juga membantu memberdayakan petani gula aren di Kabupaten Banyumas, Jawa Tengah yang saat itu sangat membutuhkan wajan berukuran besar yang terbuat dari stainless steel. Wajan seperti ini akan membantu proses pembuatan gula aren lebih higienis. Dan untuk menjaga keberlangsungan pertanian gula aren ini, YPP menyumbang beberapa alat panjat pohon yang mudah digunakan dan menjaga keselamatan petani.

The training was carried out according to the interests and business fields undertaken by the beneficiaries to ensure sustainability. For example, barista training was given to sachet instant coffee entrepreneurs who wanted to add value to their business services by producing hype coffee. MC training was given to those who were interested in public speaking activities and improved their skills from door-to-door MCs to town-to-town MCs, and so on.

YPP has paid attention to organic fertilizer training activities in several areas in order to reduced farmers' dependence on chemical fertilizers. This was done because in 2022 the price of chemical fertilizers kept increasing, especially some of which were imported from abroad. This was due to the war between Russia and Ukraine. Reducing farmers' dependence on chemical fertilizers would greatly help Indonesia's food security in the midst of a heated world political situation in 2022.

YPP has also helped empower palm sugar farmers in Banyumas Regency, Central Java, who at that time really needed large stainless-steel pans. A pan like this would help the process of making palm sugar more hygienic. To maintain the sustainability of this palm sugar farming, YPP has donated several tree climbing tools that were easy to use and kept the farmers safe.

Gempa Cianjur

Cianjur Earthquake

Gempa berkekuatan 5,6 SR yang mengguncang Cianjur telah meluluhlantakkan wilayah tersebut dengan ribuan korban berjatuhan. YPP SCTV Indosiar segera hadir dalam minggu pertama untuk membantu proses tanggap darurat dalam bentuk pengobatan gratis, puluhan tenda darurat, pakaian baru, dan trauma healing bagi anak - anak yang mengalami traumatis pasca bencana gempa.

YPP juga memberikan dukungan kepada Kementerian Sosial RI untuk mendirikan dapur umum di berbagai lokasi.

5.6 magnitude earthquake that shocked Cianjur devastated the area with thousands of victims. YPP Indosiar SCTV was there within the first week to help with the emergency response process in the form of free medical treatment, dozens of emergency tents for families, new clothes, and trauma healing for children who have been traumatized after the earthquake.

YPP has also provided support to the Indonesian Ministry of Social Affairs in establishing public kitchens in various locations.

Banjir Bandang NTT

Flash Flood NTT

Banjir bandang yang melanda NTT di 2021 masih menyisakan berbagai kebutuhan di masa rehabilitasi. YPP memberi dukungan mendirikan puluhan rumah dan *community center* di desa Wini, Kabupaten Timor Tengah Utara, NTT. Desa ini berbatasan langsung dengan Timor Leste. Puluhan rumah dan *community center* ini diserahkan secara langsung bersama Menteri Sosial Republik Indonesia.

The flash floods that hit NTT in 2021 still left various needs during the rehabilitation period. YPP has provided support to built dozens of houses and community centers in the village of Wini, North Central Timor District, NTT. This village borders directly with Timor Leste. These houses and community centers were handed over directly by the Minister of Social Affairs.

Erupsi Gunung Semeru

Mount Semeru Eruption

Erupsi Gunung Semeru yang terjadi akhir 2021, memanggil YPP untuk segera hadir di masa tanggap darurat maupun masa rehabilitasi. Di masa tanggap darurat YPP hadir mendistribusikan bantuan pemirsa Indosiar SCTV dalam bentuk pengobatan gratis, paket sembako, peralatan masak dan peralatan sekolah. Sementara di masa rehabilitasi YPP menyampaikan bantuan dalam bentuk renovasi sekolah dasar SDN Sidomulyo yang terdampak erupsi dan pembangunan Balai Pertemuan di lokasi hunian baru. Bantuan rehabilitasi ini diresmikan pada tahun 2022. Selain itu, berbagai bantuan diberikan sebagai berikut ;

The eruption of Mount Semeru which occurred at the end of 2021, has called for YPP to be present immediately during the emergency response and rehabilitation period. During the emergency response, YPP was present to distribute assistance from Indosiar SCTV audiences in the form of free medical treatment, basic food packages, cooking utensils and school equipment. While during the rehabilitation period, YPP provided assistance in renovating the elementary school at SDN Sidomulyo which was affected by the eruption and built a meeting hall at a new residential location.

Bidang Kesehatan

Health Sector

Sepanjang 2022 YPP Indosiar SCTV telah menyelenggarakan berbagai kegiatan untuk meningkatkan kesehatan masyarakat yang tidak mampu di Indonesia. Hal ini berkaitan juga dengan target Sustainable Development Growth ketiga yaitu Good Health and Well Being.

Kegiatan utama di bidang kesehatan selama 2022 adalah :

- Operasi Katarak Gratis
- Donor Darah

Throughout 2022, YPP Indosiar SCTV has held various activities to improve the health of underprivileged people in Indonesia. These activities were also related to the third Sustainable Development Growth target, namely Good Health and Well Being. Health improvement activities were carried out in the form of:

The main activities in the health sector in 2022 are :

- Cataract surgery
- Blood donations

Operasi Katarak Gratis

Free Cataract Surgery

Operasi katarak gratis menjadi salah satu perhatian YPP sebagai amanah dari Emtek Grup, karena jumlah penderita katarak di Indonesia terus bertambah dengan pertumbuhan sekitar 300 ribuan orang pertahun. Sementara operasi katarak di Indonesia hanya sekitar 250 ribuan pertahun, sehingga akan selalu terjadi *backlog*. Untuk itu YPP Indosiar SCTV berusaha untuk turut berkontribusi meskipun sedikit dalam mengejar *backlog* tadi.

Free cataract surgery was one of YPP's main concerns as it was a mandate from the Emtek Group. This was because the number of cataract sufferers in Indonesia continues to increase with a growth of around 300 thousand people per year. Meanwhile, cataract surgery in Indonesia were only around 250 thousand surgery per year, so there will always be a backlog. For this reason, YPP Indosiar SCTV was trying to make a contribution, even if it was only a slight help, in coping with the backlog.

Pelaksanaan Donor Darah

Blood Donation

YPP Indosiar SCTV juga mendukung kegiatan donor darah di berbagai kota antara lain Jakarta, Surabaya, Sleman, Jogjakarta, Malang, dan Depok. Dukungan ini adalah wujud kepedulian terhadap kondisi kurangnya stok darah sepanjang bulan Ramadan. Setiap tahun YPP Indosiar SCTV selalu memberikan dukungan pada kegiatan donor darah Ramadan.

YPP Indosiar SCTV has also supported blood donation activities in various cities, including Jakarta, Surabaya, Sleman, Jogjakarta, Malang and Depok. This support was a form of a concern for the lack of blood stock condition throughout Ramadan. Every year YPP Indosiar SCTV always provides support for Ramadan blood donation activities.

Bidang Pendidikan

Education Sector

YPP Indosiar SCTV sangat peduli pada keberlanjutan Pendidikan demi majunya sebuah bangsa. Hal ini diwujudkan dalam bentuk pemberian beasiswa kepada 11 mahasiswa dari keluarga tidak mampu sepanjang 2022. Sebagai perpanjangan tangan dari 2 stasiun televisi nasional yaitu Indosiar dan SCTV, YPP juga secara rutin menggelar kegiatan Literasi Media di sekolah-sekolah dasar di Jabodetabek untuk mengajarkan murid-murid bagaimana menyeleksi tontonan, menyaring informasi yang dilihat dan mengatur jam menonton televisi sesuai usia.

Beberapa kegiatan utama di bidang pendidikan adalah :

- Media Literasi
- Bantuan Beasiswa

YPP Indosiar SCTV was very concerned about the sustainability of education for the development of a nation. These concerns poured out by making a contribution in providing scholarships to 11 students from underprivileged families throughout 2022. As the long arm of two national television stations, namely Indosiar and SCTV, YPP also regularly held Media Literacy activities in Jabodetabek elementary schools to teach students how to sort out shows, filter the information viewed and set the durations of watching television according to the age.

Some of the main activities in the field of education are:

- Media Literacy*
- Scholarship*

Media Literasi

Media Literacy

YPP secara rutin menggelar kegiatan Literasi Media di sekolah - sekolah dasar di Jabodetabek untuk mengajarkan murid-murid bagaimana menyeleksi tontonan, menyaring informasi yang dilihat dan mengatur jam menonton televisi sesuai usia

YPP routinely holds Media Literacy activities in elementary schools in Jabodetabek to teach students how to sortout, filter the information they see and set the time to watch television according to age.

Beasiswa

Scholarship

Melalui program beasiswa yang ditargetkan untuk seluruh Mahasiswa di Indonesia yang kondisinya terbatas terhadap biaya perkuliahan, YPP hadir dalam berkontribusi meringankan beban pendidikan Mahasiswa yang tak memiliki biaya namun punya semangat yang tinggi dalam menempuh pendidikan tinggi.

Through a scholarship program targeted at all students in Indonesia whose conditions are limited to tuition fees, YPP present to lightening the educational burden of students who don't have money but have a high enthusiasm for pursuing higher education.

Bidang Lingkungan

Environmental Sector

Salah satu bidang yang menjadi perhatian YPP Indosiar SCTV sejak dulu adalah lingkungan yang berkaitan dengan peningkatan akses bagi masyarakat yang membutuhkan untuk kehidupan yang lebih baik. Kegiatan utama bidang lingkungan antara lain :

- Jembatan ASA SCTV
- SCTV Cinta Anak Yatim
- Sanitasi dan air bersih

Jembatan ASA SCTV adalah kepedulian SCTV dan pemirsa setianya untuk membantu masyarakat di daerah akan akses jembatan agar kegiatan perekonomian dapat berjalan dengan baik. Pelaksanaan pengumpulan dan distribusi donasi dilakukan melalui YPP Indosiar SCTV.

Selama bulan Ramadan juga diadakan program SCTV Cinta Anak Yatim untuk membantu panti asuhan di berbagai lokasi di Indonesia untuk mendapatkan donasi dari masyarakat. Pelaksanaan pengumpulan dan distribusi donasi dilakukan melalui YPP Indosiar SCTV.

Dalam peningkatan kesejahteraan, di 2022 YPP ikut berkiprah dalam merenovasi 10 hunian di Kabupaten Sikka, NTT, agar tempat tinggal mereka berada dalam kondisi yang layak huni.

One of the areas that has been of concern to YPP Indosiar SCTV for a long time is the environment sector that related to increase people access who need it for a better life.

The main activities in the environment sector include:

- SCTV Bridge of Hope
- SCTV Love Orphans
- Sanitation and clean water

SCTV Bridge of Hope is a form of SCTV and its loyal viewers concern to help communities in the regions of having access to bridges so that economic activities can run well. The collection and distribution of donations were carried out through YPP Indosiar SCTV.

During the month of Ramadan, SCTV Love Orphans program is also held to help orphanages in various locations in Indonesia to get donations from the viewers. The collection and distribution of donations were carried out through YPP Indosiar SCTV.

In improving welfare, in 2022 YPP took part in renovating 10 residences in Sikka Regency, NTT, so that their homes are in livable conditions.

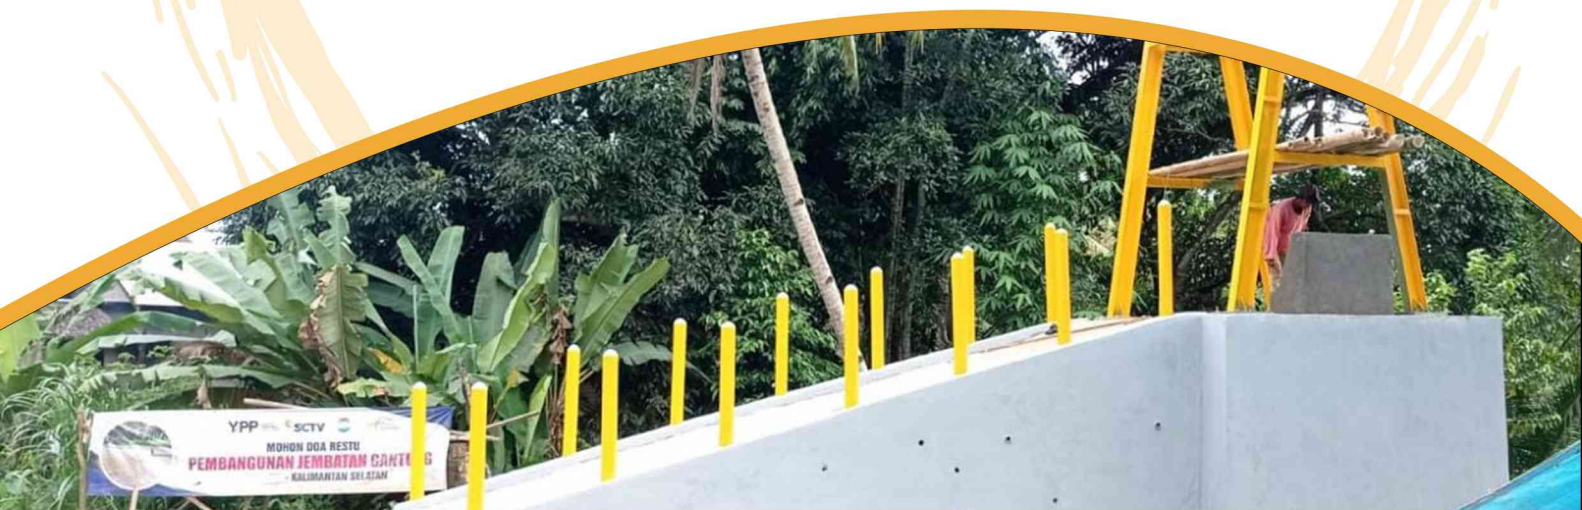

Jembatan Asa SCTV

SCTV Bridge of Hope

Setiap tahun stasiun televisi SCTV mengalokasikan jam tayangnya untuk menggalang donasi pemirsa bagi pembangunan jembatan-jembatan rusak di Indonesia. Hingga 2022 sebanyak 30 jembatan telah dibangun dan memberikan imbas yang sangat besar bagi perekonomian di sekitarnya. Hal ini sejalan dengan target SGD ke-9 yaitu membangun infrastruktur yang tangguh untuk membuka akses bagi masyarakat.

Every year the SCTV television station allocates its broadcast time to raise viewers donations for the construction of damaged bridges in Indonesia. By 2022, 30 bridges have been built and it has huge impact on the surrounding economy. This is in line with the target of the 9th SGD which is to build a resilient infrastructure to open access for the community.

Air Bersih & Sanitasi

Clean Water & Sanitation

Selama 2022 YPP juga sangat memperhatikan sanitasi yang masih menjadi masalah di berbagai daerah. Pada 2022 YPP membangun 10 toilet bagi masyarakat di desa Timboa, Boyolali, Jawa Tengah.

Pada Juni 2022 YPP meresmikan pembuatan sumur, tandon dan instalasi pipa untuk warga desa Fohoea, Kab. Atambua, NTT yang sebelumnya hanya mengandalkan penampungan air hujan dan membeli air minum dengan anggaran sekitar Rp 300 ribu per bulan.

Sejak ada sumur, tandon dan instalasi pipa yang dibangun oleh YPP, 150 KK warga di desa tersebut menjadi kelebihan air sehingga bukan saja dapat memenuhi kebutuhan sehari-hari, namun juga dapat membudidayakan tanaman hidroponik di halaman rumah mereka.

During 2022 YPP also gave special attention to sanitation which is still a problem in various regions. In 2022 YPP built 10 toilets for the community in Timboa village, Boyolali, Central Java.

In June 2022 YPP inaugurated the construction of wells, reservoirs and pipe installation for residents of Fohoea Village, Atambua Regency, NTT, which previously only relied on rainwater harvesting and buying drinking water with a budget of IDR 300 thousand per month.

Since there were wells, reservoirs and pipe installations built by YPP, 150 families of residents in the village have water excess so that not only can they meet their daily needs, but also can cultivate hydroponic plants in their yard.

SCTV Cinta Anak Yatim

SCTV Love Orphans

SCTV juga mengalokasikan jam tayang selama Ramadan untuk menggalang donasi dalam program SCTV Cinta Anak Yatim dan berhasil menggalang donasi lebih dari Rp 700 juta dan disampaikan kepada 73 Panti Asuhan di seluruh Indonesia.

SCTV also allocated broadcast hours during Ramadan to raise donations for the SCTV Love Orphans program and managed to raise more than 700 million rupiah in donations which were distributed to 73 orphanages throughout Indonesia.
